

## LPLT20/87 – Low Profile Lifting Table

Model	Capacity	Platform Size	Min. Height	Max. Height	Stroke	Lifting Time	Power Pack	Net Weight
	(kg)	LXW(mm)	(mm)	(mm)	(mm)	(second)		(kg)
HY1503	2000	1600x1200	105	870	775	30	220V /50HZ, AC 1.5kw	420

- **Hose burst safety valve to stop the lift table lowering in case of hose breakage.**
- **Removable lifting eyes to facilitate handling and installation of the lift table.**
- **Safety curtain to prevent injury during lowering**
- **Loading ramp included**

**Heavy duty lift table with large platform. These tables lower to a closed height of only 100 mm, eliminating the need to have a pit installed. They are manufactured to all European safety standards including EN1570:1999. The unit works with a remote power pack with pedestal and hand control. The upper platform is fitted with a safety perimeter curtain which cuts off the unit, on descent, if contact is made with obstructions. The 24V control box is equipped with UP and DOWN buttons as well as an emergency stop. The external power pack is equipped with a relief valve to prevent against overloading and has a compensated flow valve for controlling lowering speed.**
