

NE25 - Narrow

Some pallets are smaller than the standard width and trying to use a standard pallet jack on these pallets may damage not only the pallet but the pallet jack and, in some cases, can lead to the injury of the employee. The solution: the nn20 narrow pallet jack. The narrow pallet jack allows safe and easy access to smaller pallets and has a lowered height of 85mm and lift height of 195mm. It also has a cushion-grip for comfortable use and a 3-position hand control.

| MODEL NE25 | | STANDARD SIZE |
|--------------------------|---------------|---------------------------|
| NARROW FORKS | | USUALLY EX STOCK |
| CAPACITY | (KG) | 2500Kg |
| LOWERED HEIGHT | H1(MM) | 85mm |
