

Scissor Lift Table

This popular mobile double scissor lift table can be used for many applications and is particularly suited for use as a feeding table on an assembly line. As a moveable material handling aid it can be used, as and when needed in any location around your factory floor. It is fitted with wheels for ease of transportation around the warehouse or factory, which can then be locked into position for safe use.

- **Easy action foot operated hydraulic lift.**
- **Hand operated table descent control.**
- **Easy to transport around a warehouse or factory.**
- **Ergonomically designed.**
- **Equipment such as this is known to increase productivity and efficiency on the factory floor.**

Model	SPF500
Capacity	500KG
Platform Size	1100x610x55
Lift Height (h2)mm	1500mm
Lowered Height (h1)mm	475mm
Wheels	150mm
Self Weight (kg)	160KG
Packaging Size (mm)	1150 x 560x 450
Pedal Cycles (to max un-Laden)	35 pump strokes
Pedal Cycles to (max Laden)	80 pumps strokes
