

Model	SES15/25
Drive Unit	Electric Lift Only
Load Capacity	1500 Kg
Load Centre	550 mm
Mast Form	Double Cylinder
Front Type Dimensions	80×60 mm
Rear Type Dimensions	130×55 mm
Traction Wheel	250×80 mm
Battery Charger	AC220V/50HZ/ DC24V/40A
Fork Dimensions	1000x160x250
Lifting Height	2500 mm
Extended Height	3000 mm
Closed Height	1950 mm
Fork Clearance From The Ground	80 mm
Total Length	2070 mm
Total Width	815 mm
Maximum Fork Width	680 mm
Turning Radius(Open Pedal)	2000 mm
Truck Weight(Without Battery)	540 kg

## SES15/25 SEMI ELECTRIC STACKER

The semi-electric stacker is a reliable and stable device that is manual push but has an electric lift. It can lift loads up to 1500kg and has a lift height of 2500mm. The semi-electric stackers is a low maintenance device with goods mobility. Ergonomically designed to ensure reduced injuries and strain.

This unit is also available with wide straddle legs.
